

"But my [SIEM|SOAR|etc.] already does that. Well, sort of."

Cisco's Delivering the SOC of the Future

SIEM

Great at answering complex questions

"Show me all failed login attempts for the last 12 hours from ou U.K. subsidiary"

ヘレベ

SOAR

Great at notifying you of an incident

"PowerShell created an internal network connection never seen before. This might be ransomware!!!"

Great at automating workflows & response actions

"Initiate a password reset for all U.K. employees."

"Quarantine the affected endpoint and take a snapshot of all our data center servers."

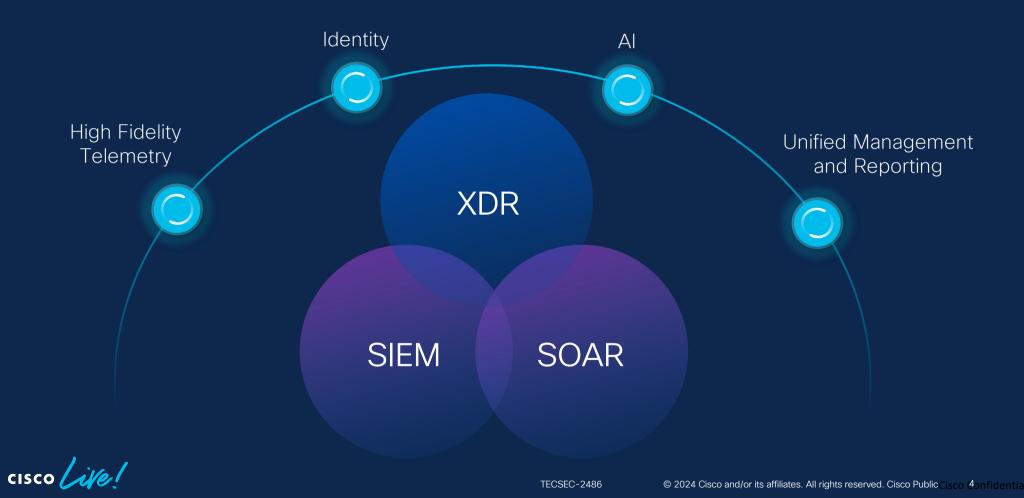

High Fidelity Telemetry

Αl

Unified Management and Reporting

Cisco is Delivering the SOC of the Future

Building Blocks of An Ideal Solution

XDR Portal / Customer "Outputs" "Inputs" Consumption Platform Native and 3rd Party Analytics & Incident Management Telemetry Sources Correlation Engine Customer Managed Response Actions and Threat Incident Data Repository Workflow Automation Intelligence Response Managed Detection & Response Asset Case Management Threat Hunting Context (device, user)

Building Blocks of An Ideal Solution

XDR Portal / Customer "Outputs" "Inputs" Platform Consumption Native and 3rd Party Analytics & Incident Management Telemetry Sources Correlation Engine Customer Managed Response Actions and Threat Incident Data Repository Intelligence Workflow Automation Response Managed Detection & Response Asset Case Management Context Threat Hunting (device, user) Cisco XDR Splunk cisco Live! TECSEC-2486

Different approaches, optimized for different things

Extensibility

Data Sources, Integrations

SIEM & SOAR

- Any source, at scale
- Extended storage
- Flexible workflows

XDR

- Curated data
- Limited duration
- Targeted automations

Customizability

Detections, Investigation, Response

The path to a more efficient and responsive threat detection, investigation, and response capability

Splunk + Cisco

XDR:

Foundational Detection & Response

SIEM:

Broadening Insights

SOAR:

Unlimited Automation

Unified TDIR:

Maximize SOC Efficiency

Real-time attack chain detection for the most common attacks

Risk based detection

Lifecycle automation and optimization

Al Guided

Thank you
